

School Supply Recommendations

We recommend the following components for school disaster preparedness . . .

- **Classroom Response Kits (First Aid and teacher supplies)** – Classroom roster should be added to this kit.
- **3-day Support Kits (Food, water, blanket, lightstick, heat . . .)** – This will help support students and staff following a disaster.
- **4-Person Search & Rescue Kits** – Designated staff members can help search and aid trapped students and staff.
- **Portable Toilet Systems** – One of the first needs identified by evacuated children is the restroom.
- **Communication Supplies**
- **Miscellaneous Bulk Supplies** – For supplementing school kits and supplies (see catalog or we pages for items).
