## After the earthquake . . .

- Remain calm and patient
- Give first aid and help for seriously injured people
- Shut off valves for water, gas and electricity as needed
- Turn off all appliances and equipment
- Turn on your battery powered radio for news and instructions
- Stay away from downed powerlines
- Do not turn on lights and avoid striking a match if leaking natural gas is present
- Confine or secure your pets
- Call your family contact if absolutely necessary — do not use the telephone again unless it is a life-threatening emergency
- Seek out shelter and medical care if needed

*Make copies of this and distribute to all family members.*
